Special Tender condition for Splitting of tender quantity.

1. The Tiling works requires strict adherence to the time lines for which the individual resident will give their convenient time slot and the work will be required to be completed in that time slot. Further, this work will be executed in the house already occupied by the resident, so there will be restrictions on working time and working area.

Since, the work is dependent on the convenience of the Resident, it may happen that at times there is no work and at times many no. of houses will be given for tiling works. So in order to complete the Individual resident tiling works within the Allocated/ allowed time, the work has been divided into two Packages.

Accordingly, the Prequalification criteria is based on the estimated cost of 50 % of the houses.

The price Bid has been prepared on percentage rate items of all the houses cost expenditure. So lowest cost of Fourteen room quoted by any Bidder will be **considered as Lowest Base Rate for all Rooms** of both the Packages.

- a. **L1 Bidder will be awarded almost 50 % of the work**
- b. In case L2 Agrees to work on L1 rates then **L2 will be awarded 50 % of the work.**
- c. In case L2 disagrees then L3 will be asked to work on L1 rates and awarded package A only.
- d. In case L3 not Agrees to work on L1 rates then Either the Package-B can Also be awarded to L1 Bidder or scope of Package B can be cancelled and the same will be retendered **as per the decision of the Competent Authority. This will mainly be judged on the past experience and financial capabilities of the L1 Bidder and if felt necessary can be based on the performance of the L1 Bidder for his Package.**

Initially this division will be done for the respective Package Contractors only and the mile stones will be closely monitored. In case the contractor fails to achieve any mile stone then part of the balance/ complete balance works can be given to either next lowest bidder or to the contractor of other package. In such case the work will be given on the L1 rates of such items and no compensation on account of change in the scope of the work shall be given to any contractor i.e. neither the non performing contractor nor to the contractor being given the balance scope of work.

The milestones will be given in the respective work orders which will be given later.

2. Further, during the execution of the work if the progress of work is not found satisfactory/ as per schedule or executes poor quality of work and the respective package contractor fails to improve the progress or fails to maintain the quality of work even on giving 7 days' notice (7 days will be counted from the Date of emailing the notice to the contractor) then the work can be awarded to next lowest bidder after taking his consent to work on same rates and obtaining Approval from the Competent Authority.

In case retendering needs to be done just because of nonperformance/ poor quality work/
Determination/ rescind of work as stipulated in the G.C.C., then the work will be got executed on the risk
and cost of the contractor being rescind
